

# How to fit? Perfect Fit Blinds

## You will need:

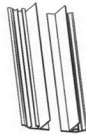

- A drill with correct bit
- A crossheaded screwdriver
- A metal tape measure
- A pencil

## You should have:

Frame clips x4

Side frame x2

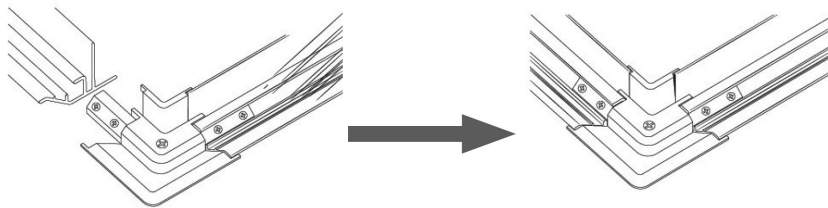

Top frame (with blind) & bottom frame

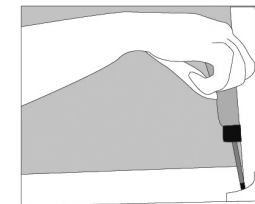

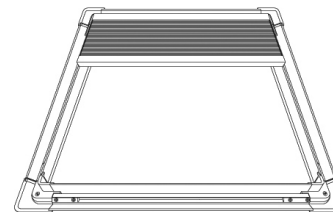

## Step 1

Slot the side frames into the bottom frames ensuring you line up the five small holes at each corner, then screw them into position. Repeat this process for the other side.

## Step 2

Select the top part of the frame and place this into the right and left side frames as before, slotting them into position and ensuring they are aligned and fixing them onto each side frame, using the screw provided.

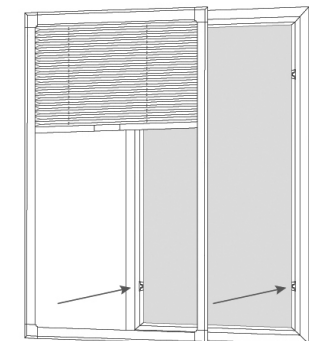

## Step 3

Push the clip into the seal against the glass, repeat this for all four corners. This may need to be adjusted slightly.

## Step 4

When you have the four frame clips fixed into place, slot the perfect fit blind into the clips, carefully pressing firmly until you hear a clicking sound.

### Safety tips:

**There are things that you can do to reduce risk in your home.**

- Move beds, cots and furniture away from the window.
- Do not let cords or chains hang loose. Make sure they are kept out of reach of children at all times. Do not tie loose cords and chains together.
- Check the condition of all safety devices if not used regularly and replace if the device is faulty.

### Warning

Blinds can be potentially dangerous to small children. Please be aware that swallowing small parts can cause internal asphyxiation. Looped or low hanging cords, chains or tapes can create hazardous loops which could lead to the risk of strangulation. We do everything we can to ensure your chosen product is child safe. As a minimum all of our blinds meet the European Standard BS EN 13120 for safety. Our instructions and the supplied Child Safety device(s) are intended for you to ensure that your blind is as safe as possible.

The information below gives guidance for fitting the provided child safety devices. All safety devices must be correctly installed for the protection from strangulation of young children and the proper use of the blind. Please read the instructions carefully and keep safe for future reference.

Only use the devices and cords provided with your blind. Videos showing how to fit and reconnect child safety devices are available, along with replacements at: [www.makeitchildsafe.co.uk](http://www.makeitchildsafe.co.uk).
